DETAILED ACTION

Information Disclosure Statement

1. The references cited in the Search Reports issued by EPO and JPO have been considered, but will not be listed on any patent resulting from this application because they were not provided on a separate list in compliance with 37 CFR 1.98(a)(1). In order to have the references printed on such resulting patent, a separate listing, preferably on a PTO/SB08A and 08B form, must be filed within ONE MONTH of the mailing date of this communication. NO EXTENSION OF TIME WILL BE GRANTED UNDER EITHER 37 CFR 1.136(a) OR (b) to comply with this requirement.

Drawings

2. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings filed on 21 December 2004 (particularly figures 3-4 and 6) are not clear and legible. See 37 CFR 1.84 for guidelines.

Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

4. The application has been amended as follows:

TITLE:

Replace the current title with the new title, "Real-Time, Cross-Correlating Millimeter Wave Imaging System Using Dual Pill-Box Antennas"

5. This application contains claims drawn to an invention nonelected without traverse in the reply filed on 22 August 2007. The non-elected claims 1-18 and 29-36 are hereby cancelled.

Allowable Subject Matter

6. Claims 37-64 allowed.

The following is an examiner's statement of reasons for allowance: None of the prior art teaches a method/antenna for receiving millimeter wave radiation as recited in independent claims 37 and 52, including dual modified pill-box antennas, each comprising the claimed metal housing, the claimed curved reflector surface, the claimed feed horn, and the claimed one or more sub-reflectors.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
